

Target Cable Protection

Think about how you are going to shield the Target Cable on its "run" from the Target Box to the TISS strobe unit? Using the supplied adhesive backed cradle mounts and cable ties, attach the Target Cable in such a way that it is protected from bullet splatter. This drawing will show you a way to armor protect the Target Cable, using 1/2 inch Black Iron/Steel pipe, and a riser clamp to stabilize your pipe assembly. You can obtain additional pieces of Velcro mounting pads, Order Number DK8-005 (Package of 5 sets), or Cradle Mounts w/ Cable ties order Number DK8-006 (Package of 10 sets) from Equi-Pulse Company/Spencer Instrumentation, Inc.

MATERIAL: USE BLACK IRON/STEEL PIPE, 1/2 NPT
